EXPERIENCE

ANGULAR DEVELOPER

ConnectSecure

09/2022 - Present Bengaluru, Karnataka

About the Company:

Remediation Plan tableConnectSecure is a cybersecurity platform that delivers real-time vulnerability assessment, compliance tracking, and threat detection to enterprise clients worldwide.

Key Contributions:

- ConnectSecure is a cybersecurity platform delivering real-time vulnerability assessment, compliance tracking, and threat detection to global enterprise clients.
- **Developed a new Sales & Marketing portal from scratch**, including **offline UI for local assessments**, enhancing usability and reliability in low-network environments.
- **Collaborated with UI/UX designers** to implement **Angular Material** and **custom reusable components**, improving user experience and reducing onboarding time by **20%**.
- Standardized Git workflows (feature branching, PR reviews) across 20+ developers, improving release reliability and reducing merge conflicts by **75%**.
- Integrated RESTful APIs using Angular HttpClient for real-time microservices communication.
- Enhanced performance by implementing lazy loading, code splitting, and ChangeDetectionStrategy.OnPush, improving page load speed by **20%**
- Mentored junior developers and conducted code reviews, reducing bugs by **30%** and improving team productivity by **25%**.
  Delivered 95%+ client satisfaction scores through consistent, on-time delivery and UI/UX excellence.
- Developed responsive UI using Angular Flex Layout and custom CSS Grid, achieving **99% cross-browser compatibility**.
- Optimized performance by implementing ChangeDetectionStrategy.OnPush, lazy loading, and dynamic imports — improving TTI by **20%**.
- Utilized **NgRx** for state management and modularized architecture using lazy loading and route-based splitting to reduce bundle size by **25%**.
- Regularly participated in sprint planning and client demo calls, contributing to a **95%+ project satisfaction rating** from clients and stakeholders.

SUMMARY

Results-driven **Angular Front-End Developer** with 3+ years of experience building scalable, high-performance web applications. Proven success at **ConnectSecure**, driving a **30% increase in data processing efficiency** and enhancing **UI/UX satisfaction by 25%**. Skilled in **Angular 12+**, **TypeScript**, and **RESTful API integrations**, with strong expertise in performance optimization, modular architecture, and mentoring development teams.

KEY ACHIEVEMENTS

Project Efficiency Improvement

Reduced project delivery time by **20%** by streamlining Angular module structure, adopting lazy loading, and refining Git workflows—boosting team velocity and cross-functional alignment.

Customer Satisfaction Boost

Achieved **95%+ client satisfaction** through consistent delivery, UI refinements using Angular Material, and rapid bug resolution via structured code reviews and CI feedback loops.

Performance & Bundle Size Improvement

Implemented ChangeDetectionStrategy.OnPush, code splitting, and dynamic imports to reduce load times by **15%** and bundle size by **25%**, improving Google Lighthouse scores.

Operational Efficiency Boost

Optimized component reuse and modular architecture using **NgRx and custom pipes**, reducing code duplication by **40%** and easing long-term maintainability.
